SHAKESPEARE: HISTORIES

Shakespeare’s English history plays raise big questions: about power, politics, good (and bad) government, revolution, violence, war, social pressure, gender, class, race, family bonds, performance and playacting...the list goes on... Together, we’ll read, watch, and perform three of these challenging and exciting plays, considering how they both transport us into the past and speak to issues that are important to us in the present.

No knowledge of the Wars of the Roses or English history necessary; these are historical fictions, not documentaries!

ENGL 3070 Fall 2024
Monday/Wednesday/Friday 11-11:50am
Dr. Marianne Montgomery
